Admissions Standards*

* Information listed will be updated as necessary to reflect the competitive range for candidates undertaking the qualifications below. Please refer to the website for the most up-to-date information.

Admissions decisions to the University's undergraduate degree programmes are made based on academic performance as well as other factors, including interview performance, personal statement, references, other documents submitted to the University, etc. Candidates should take note of the standards laid out below and any Programme Entrance Requirements on the admissions website for examination achievements in particular subjects that are required for consideration to specific programmes. Attaining academic achievements better than the expected lower boundary stated is not a guarantee for admission to the University.

| IB Diploma | GCE A-level / International A-level | SAT / AP |
|---------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Candidates should have completed the full IB Diploma, including CAS, TOK, and the Extended Essay. | Candidates should present a minimum of 3 A-level subjects, excluding English and Chinese language. | Candidates should have completed a) Redesigned SAT or ACT plus writing; AND b) a minimum of 3 AP Exams. *Students presenting the now defunct SAT Subject Tests may be considered for admission based on comparable achievements. |
| Since the 2017 intake, the highest IB Diploma points attained by candidates admitted was 45 / 45 | Since the 2017 intake, the highest A Level results attained by candidates admitted was 6A*1A. | Since the 2017 intake, the highest SAT Reasoning results attained by candidates admitted was 1590. |

Expected Lower Boundary for Admissions

The information below refers to school leaving examination scores that are considered competitive for entry to the specific programme based on figures from 2017 onwards. For qualifications that are not listed, reference information can be found on our website.

| | IB Diploma | GCE A-level / International A-level | SAT / AP |

Bachelor of Arts and Sciences Degrees

The Bachelor of Arts & Sciences degrees, involving all ten faculties, are aimed at nurturing globally-minded thinkers and leaders to leverage their interdisciplinary knowledge and skills to address the contemporary and future challenges of an increasingly complex world.

In bringing together the arts and sciences, the BASc programmes are designed to develop an interdisciplinary mindset and approach to learning, crossing traditional faculty lines and enabling students to work creatively and collaboratively in adopting innovative ways of thinking and problem solving.

For more details, please visit: <http://basc.hku.hk/>

HKU Dual Degrees and Collaborative Programmes

HKU continues to expand its collaborative programmes with world leading universities, giving students fantastic opportunities to enrich their studies while creating networks and unforgettable experiences abroad. The following programmes are open for application for the 2022 intake.

HKU-Peking University Dual Degree in Law

HKU-Peking University "Future Leaders" Dual Degree (Economics, Finance and Management)

HKU-Sciences Po Dual Degree (Arts, Business Administration, Social Sciences)

HKU-University of British Columbia Dual Degree (Business Administration and Commerce)

HKU-University College London Dual Degree (Law)

HKU-University of California, Berkeley Dual Degree (Arts, Social Sciences)

HKU-University of Cambridge Joint Recruitment Scheme (Engineering and Computer Science, Natural Sciences)

New Programmes for 2022 Intake

Faculty of Arts

Bachelor of Arts in Humanities and Digital Technologies

This interdisciplinary programme brings together your digital technology skills with your chosen humanities discipline to create an individually-tailored learning experience. You will be equipped with the skills to drive pioneering work in your humanities areas of specialisation, with the capacity to think in new ways about technological innovation, and with the ability to build a career in a wide array of fields.

LKS Faculty of Medicine

Bachelor of Science in Bioinformatics

The BSc (Bioinformatics) programme nurtures the next generation of biomedical data science professionals that are well equipped to work in innovative areas of growth such as genomic technology, precision medicine, digital health, mobile health, big data analysis of electronic health data, and global health analytics.

HKU Business School

Bachelor of Science in Marketing Analytics and Technology

This programme equips you with quantitative skills, technology, and marketing know-how to pursue a career in the digital economy and modern businesses. Graduates will be well-prepared to join the workforce in digital marketing, entrepreneurship and start-ups, gaming, digital platforms, e-commerce, IT, consulting, finance, and other industries with a focus on analytics, data, and technology.

Faculty of Science

Bachelor of Science and Bachelor of Laws (Double Degree)

The BSc&LLB programme aims to cultivate your legal and scientific mindsets. You will be equipped with academic and interdisciplinary knowledge and skills in science and law, via specially designed courses and capstone experiences in the programme, to solve novel and real-life scientific and legal problems.

Faculty of Engineering

Bachelor of Engineering in Data Science and Engineering

Under this programme, you will be nurtured to become a professional who is equipped with core knowledge and technologies in data science and practical training in data engineering, and is capable in driving different disciplines to excel in the era of big data.

Faculty of Social Sciences

Bachelor of Psychology

The new BPsych programme provides an internationally-recognised qualification in fundamental aspects of Psychology that allows students to pursue both professional training in applied aspects of Psychology (e.g. Educational or Clinical Psychology), and advanced research training in all related research areas of Psychology, including Cognitive Science and Neuroscience.

These programmes are subject to approval.

Please refer to our website for the admissions requirements of these new programmes.
